CART is an exciting new avenue for court reporters to use their skills professionally while serving others. The opportunities are endless, from business meetings, conventions, to serving individual students in elementary school, high school, or even through their college career. Whatever their scholastic aptitudes may be, you can help them fulfill their dreams. Katherine Evans of the Hearing Loss Association of Salt Lake City will inspire you to hone your skills to serve this need in our community,

tell you how to raise public awareness of this value, and give you the tools to bring the provider and the recipient together to create possibilities beyond imagination.

"It's an EMERGENCY"

Emergencies -- on many levels and scales -- happen every day. Maralin Hoff, the "Earthquake Lady" from the Division of Homeland Security, will give you reactionary tools to handle any emergency situation. Learn the tools to harness that adrenalin rush, keep a cool head, and BE PREPARED to make rational, competent, wise decisions to get through any potential disaster, be it an earthquake, flood, mudslide, or you skipped a number when marking the exhibits.

2:00-3:30 Carol Masheter

"FEAR FACTOR"

What are you afraid of? Taking the CRR? The RMR? The National Speed Competition? Carol Masheter will tell you, from her example, there is nothing to fear but fear itself. Carol has climbed just about every elevation in the world, including summiting Mt. Everest at the ripe young age of 61 1/2. Her book about this climb, "No Magic Helicopter," was published in early 2011. No matter your difficulties, your addictions, your Achilles heel, you too can conquer the Mt. Everest in your life and leave this session with victory in your grasp.

Come participate in an interactive session with the President of NCRA and find out how Utah can ensure that we have a BRIGHT future, and be a part of the National "Writing our Future" campaign.
